

1

Hello my name is Lucy. This morning we read some information about your village, Kainmari, consequently I decided to write this letter to you. Throughout it I will be explaining to you all about my life.

I live in Petts Wood, England also I attend St James R.C. primary school. In my school we regularly raise money for CAFOD (the organisation that told us about you) Recently we raised £268.43 for CAFOD by holding a winter walk through our local park. Despite having to wade through the mud everyone enjoyed it. We started our first year of primary school at the age of 4 and finish at 11 years. Eventually we start secondary school. Me and my class will be starting secondary school in September. Some people think it will be difficult however most people are looking forward to it.

In my house everyone is excitable. In his bedroom, my brother (age 13) sits at his desk playing computer games all day while

My younger brother Daniel (age 9) plays dangerous games in the hallway. I usually sit by the window doing my homework whereas my mum cooks the dinner and my dad goes to work. As well as having a brilliant family I also have great friends. One of my best friends are called Caitlin. I have known her for a very long time and as well as this she is reckless but also friendly.

In my life, lots of experiences have influenced my ambitions. As I do dance I would love to do tap dance. I find this very hard but also very fun.

I hope that you have enjoyed reading this letter and that you and your family are well. I would really love you to write back and hear that you and your village are well.

Best Wishes From

Lucy  
xxxx

Hello, my name is Anna. We read about Bangladesh and also your village Kairnari this morning. We now would like to write to you. I live in a small town in the south of England called Petts Wood. My mum, dad and me live in a house close to my school, St James Roman Catholic Primary.

At my school we study many subjects. I enjoy ~~learn~~ learning History however Literacy can be fun as well. Furthermore learning R.E is vital for our school. Living in Petts Wood is wonderful reason being everyone is affectionate towards each other.

Despite going to my school I enjoy dreaming about what the future holds for me. As an adult I would like to be a nurse therefore I could help people. Dreaming makes me feel that anything is possible even if it may not always be believable. Sometimes I wish for the strangest ~~the~~ things which I know will never occur. You like dreaming too don't you? Unfortunately some people may think dreams are stupid. Although people who think that are wrong. Everyone should have dreams.

Dreams are perpetual on the other hand I

have hobbies as well. Sports intrigue me especially netball and in addition to that football. Reading is a thing I adore, it transports you to places beyond this world! What are your hobbies?

I hope this letter arrives to you in time for Christmas. Have a Merry ~~Christmas~~ Christmas in case it comes to you in time! If you have enjoyed reading my letter please write back to me.

Best wishes and lots of love to everyone.  
from Anna x

Hello my name is Cameron I live in Bromley which is in England. Our class read about your village in Bangladesh.

I am ten. I have a brother Connor who is nine and a sister Madeline who is <sup>six</sup> along with my dad George also my mum Vicky. I have pets, my three lizards Spikey, Jinky and Cracker. Also I have a snake called Slinky. And in addition to that cold water fish and as well as this I have tropical fish along with two shrimps.

I play rugby for Bromley Bromley Rugby Football club. My position is Flyhalf. Rugby is a very physical and as well as this you hold the ball with your hands also you are only allowed to pass backwards.

Going to school is fun. We get taught: D.T, making and planning inventions; maths; English, learning the structure of writing and many many more subjects. Once you are eleven you go to another school it is called secondary school and as well as this you learn much more. In contrast to that if you are too young to go to school you can go to pre-school if you want to.

When our class was reading about your people we read about your dreams. My dream is when I am older I want to play rugby for Glassgow warriors. I also want to play rugby for Scotland if that happened I would be

over the moon.

I hope your people are well and  
may no cyclones hit you again  
also may everyone have house in  
your village Kairuari.

from Cameron

P.S have a merry christmas
