

10

Hello my name is Luke Patrick Meehan, aged 10. I attend Saint James Primary School, located in Petta Wood, Kent. Just as recent as this morning, I read some information leaflets linking my Parish with your village, Kainmar. As a result of this I am writing to you.

I have already mentioned about my school St James. They have an incredible range of subjects which include a selection of different types of maths, literacy which is not dull, and science, geography and in addition to this history. We have a mixture of children from loud to tranquil ones but yet they are welcome.

I am extremely grateful for my Mum, Dad and Sister (Nicky, Brian and Bethany). At this present moment my Mum is recovering at home, ~~in~~ after a dislocated knee. In contrast my Dad wakes up at five to go London for work. Whereas I passed my test for the 3rd best school in the country.

My favourite things are: watching T.V, football, rugby cricket and more. Also I like seeing my close relatives as they leave me

getting dismissed. I play for Dartfordians
Rugby Club and as well as this we were
crowned champions of Kent County.

When later life arrives I will hope
to be a sports journalist and also have a
family. Before that I would love to go to
the school I have already conversed to
you about - St Olaves.

Hello, my name is Rachel. I am one of the pupils of St. James School. After finding out about your village, Kainmari, our class have decided to write to you as we were intrigued by the stories we heard.

St. James School is in the town Petts Wood where I also live. There we attend the local church; learn many different subjects and go on school trips even to different countries. Because of this we learn about things that make us incredulous it can actually happen. As well as that we have learnt how to overcome what we thought were insurmountable fears by going on school trips where we learn to work together or to gain confidence. Furthermore we also do fun though educational events in school that make learning more interesting. This includes prayer day where we come together to write prayers while thinking about our religion. Every day I am always excited to see what we are doing at school. Lastly, I am very proud to be a pupil from St. James.

In addition to this I am also extremely proud of my family which to me are my idols. At the moment my sister is studying for her up coming mocks which we are hoping she will succeed in. My dad is currently doing his job in ICT to earn money for the family and my mum is taking good care of the family along with the house.

These are the reasons why I see them as my role models. They have inspired me to be who I am today. I am so happy that I have such a good natured family that I would be willing to do anything for.

When it is the weekend, my most favourite things to do would be attending dance classes; enjoying a game of sport with my family; sitting slumped on a chair relaxing and spending quality time with my friends. I love to do these things as they get me motivated as well as relaxed.

One of my favourite things out of the list would have to be attending Emmerson Dance School as I love expressing my emotions through dance. Recently we did a show which I took part in. It was nerve racking but on the other hand it would make my family proud. These would probably be the hobbies you would catch me doing in my spare time.

Finally I would like to fulfill my dream of becoming a kind hearted person who supports charities such as CAFOD which I know you are currently being supported by. Another ambition of mine is to have a family that is healthy as well as loving. I hope that you and your family are safe in Cairnmarie too. I also hope you have enjoyed reading this letter!

from Rachel

Hello my name is Jessica. I am 11 years old also I live in a town called Petts Wood. It is very friendly and in addition to that we welcome everyone. I go to a school called S.T James which is a Primary school. You can start school at the age of four also you can start at five, you leave when are 11. Then you move up to a secondary school. My favourite subject is P.E also I like history.

My house is on quite a small road on the other hand it is not busy. In my family I have a mum, ~~br~~ dad, brother and a sister. My ~~mum~~ mum and dad are both teachers and in addition to that I would love to be one as well. At my school I have lots of friends, most of them live near me.

I love sport and as well as that I have the chance to do football. Also I like running and ice - skating. Sometimes my dad takes me to play tennis. I am lucky enough to have a bike also I like going out on it with my family.

It takes about an hour to get to the capital, London, from Petts Wood by train. I live quite near shops however I am not allowed to go to them on my own. I am excited to go to secondary school never the less I will miss all of my friends.

If this gets to you before Christmas, Happy Christmas and a Merry New Year. I hope you and all your family are well.

Hello my name is Lucia. This morning we read your information leaflets and decided to write back to you. Our parish of St James are linking with you and also we had a lesson on CAFOD that are helping develop your country.

As you have discussed your family and friends, I will too. I have two brothers and a sister, who are all older than me, I live with both my mum and dad; my very good friends are: Eugénie, Abbie, Olivia, Ellen, Jessica and Rachel.

I am a catholic and in addition to that I go to a catholic school. I started school at 4 years old and am now in my final year at 10. Very soon I will start secondary school. Despite I have a very lively personality, I will become very timid as I start my new school. I am really looking forward to it but on the other hand I will really miss my old classmates and as well as that the teachers.

During the week I go to school five days out of the seven nevertheless I still have time for my hobbies such as, playing football, hanging out with my friends and climbing trees. Although I love to do boy things I do have a passion for singing. When I am older my dream is to help the people living in poverty and become a teacher. My previous teachers - Mrs Wilson and Mrs Weeks - have inspired me to be loving and caring as a teacher but be strict when the boundary had been crossed.

If this letter arrives before Christmas then I ~~wish~~ wish you a Merry Christmas and a happy new year. I enjoyed talking to you.
